

24-port fiber optic patch panel for carrier access

Overview

The 1U 24 port fiber patch panel is design to realize the connection between external optical cables and pigtails, it is available to configure with SC/LC plate as application need. It has four cable entry points on the back fitted with rubber grommets to protect the fiber optic cable from damage. The Centrix™ System is a high-density fiber management system that provides a balance of industry-leading density with innovative jumper routing. 3-C and TIA/EIA-604 FOCIS standards, and the adapter sleeves are made of zirconia ceramic to ensure connection precision. The product is primarily used with standard 19-inch cabinets or racks. Unisol 24 Port Rack Mount Sliding Fiber Optic Patch Panel is compact, efficient, and built to streamline fiber optic network management.
