

AI computing server supply in the UAE

Article Overview

The UAE AI server market is rapidly expanding, with high-performance AI servers available from major global brands and strong government and enterprise adoption driving demand.

Market Overview

The UAE AI server market is experiencing rapid growth, projected to increase from USD 28.7 billion in 2025 to USD 142.5 billion by 2031, at a CAGR of 30.8% . This growth is fueled by the adoption of generative AI, large language models, and edge AI applications, as well as investments in smart cities, autonomous systems, and cloud-based AI infrastructure . Enterprises across healthcare, finance, retail, logistics, and manufacturing are increasingly deploying AI servers to handle complex workloads, deep learning, and large-scale inference tasks .

Key Suppliers and Server Options

Several suppliers provide high-performance AI servers in the UAE, including Dell, HPE, Cisco, Lenovo, Supermicro, and Huawei . Popular models include:

- Dell PowerEdge R750xs, XE9680, C4140, XE9780 – featuring dual Intel Xeon Scalable processors, NVIDIA HGX GPUs, DDR5 memory, and NVMe storage .
- HPE DL380 Gen10/Gen10 Plus, Apollo 4200 Gen10 – optimized for AI, ML, and HPC workloads .
- Cisco UCS C480 M5, C240 M5, C220 M6 – designed for dense GPU acceleration and AI model training
