

Brackets for tubular busbars

Overview

The bus bar fastening consists of an aluminium double “C”-profile, angle brackets, T-head bolts and plastic fastening clamps. The fastening clamps are/must be designed as “fixed bearings” or “plain bearings” to enable axial sliding of the bus bar when there are several. Module kit allows for custom busbar support creation with flexibility to select distance between phases and supports, 3 phase. Adjustable Flat Busbar Support Kit enables to build custom adjustable flat busbar supports. Compact busbar support design fits in 400 mm (15 3/4") deep panels. Module kit. Busbar supports Mounting cabling accessories Busbar supports Edgewise mounting with adjustable interphase Advantages Insulating materials Our range of SBC upright supports with adjustable interphase is made using thermoplastic. This very resistant material (reinforced fibreglass) is insulating so. Our Busbar Supports are standardized with a fire protection rating of UL 94 V0 and type-tested according to DIN EN 61439-1. Terminal supports. Preformed Line Products (PLP) serves the communications, energy, special industries and solar markets with connections you can count on.
