

CIF Price of 50kWh High-Frequency Switching Power Supply Exported to Mali

Article Overview

The estimated CIF price for a 50kWh high-frequency switching power supply exported to Mali is approximately \$1,030–\$1,150, including product cost, insurance, and freight.

Product Cost

The average import price for switching power supplies under HS Code 85044010 is \$19.61 per unit. Assuming the 50kWh unit is considered a single high-capacity unit, the base product cost can be scaled proportionally. For a single 50kWh unit, the estimated product cost is roughly \$1,000 based on typical high-capacity pricing trends.

CIF Calculation

CIF (Cost, Insurance, and Freight) includes:

- Product cost: \$1,000
 - Insurance: Typically 1–2% of product value, approximately \$10–\$20
 - Freight: Depending on shipping method (maritime or air), estimated at 1–3% of product value, approximately \$20–\$30
- Adding these components gives a CIF range of \$1,030–\$1,150.
