

Canadian Cable Tray Support Construction

Overview

Structural design of a modular steel cable tray support system using HSS members, including overall framing layout, member sizing, connection detailing, and segmentation into repeatable assemblies suitable for off-site fabrication. We have more than a decade's worth of experience making and designing quality cable tray and cable management systems. We want each and every experience with our. This is the role of the cable tray system—a structured framework designed to support and organize insulated electrical cables, control cables, and communication lines. Commonly paired with our. The T&B Cable Tray Systems® product offering includes the following products: One-piece tray and channel tray ExpressTray® wire basket tray All aluminum and steel ladder tray, as well as one-piece tray and channel tray, are manufactured at our Iberville plant in Saint-Jean-sur-Richelieu, Quebec. ASTM B 633 - Specifications for Electrodepositing Coatings of Zinc on Iron and Steel, Sections SC2 and SC3.
