

Canadian Spanning Cable Tray Company

Article Overview

Unitray, Superior Tray, and T&B Cable Tray are among the leading Canadian manufacturers of cable tray systems, offering CSA-approved, customizable solutions for various industrial and commercial projects.

Key Canadian Cable Tray Manufacturers

Unitray is a prominent manufacturer and supplier of aluminum cable trays in Canada, producing CSA-approved Class C, D, and E trays in standard lengths of 3m, 5m, and 6m, with custom lengths available. Their product line includes ladder, perforated, and solid bottom trays, as well as the FASTRAY® system, which simplifies installation and reduces labor costs. Unitray emphasizes rapid delivery, often shipping within 3-5 days, and maintains ISO 9001, ISO 14001, and OHSAS 18001 certifications for quality, environmental, and safety standards (unitray.ca). Superior Tray specializes in both standard and custom cable tray systems, offering steel and aluminum options. Their products include ladder trays, solid bottom trays, and perforated trays, designed for durability and flexibility across construction, telecommunications, and industrial projects. Superior Tray focuses on high safety and performance standards, making them suitable for demanding environments (apextray.com). T&B Cable Tray Systems®, part of ABB Electrification Canada, manufactures aluminum and steel ladder trays, one-piece trays, and ExpressTray® wire basket trays. Their facilities in Iberville, Quebec, and Edmonton, Alberta, support both Eastern and Western Canada, providing quick turnarounds of 3-5 days for standard products and accommodating custom orders with non-standard lengths, special colors, and pre-drilled grounding holes (tnb.ca).
