

Ceiling Manufacturer of Network Security Equipment

Article Overview

Key manufacturers of ceiling-mounted network security equipment include AETEK, Gordon Inc, and Oberon, offering PoE switches, security ceilings, and mounting solutions for network devices.

AETEK

AETEK specializes in ceiling PoE switches that integrate network power and data distribution directly into ceiling installations. Their products feature managed and unmanaged options, daisy-chain support, and L2 PRO management for monitoring system status, cable diagnostics, and device lists. The ceiling PoE switches simplify installation by reducing the need for extra power adapters and complex cabling, making them suitable for offices, retail, and hospitality environments. AETEK devices are compatible with Milestone XProtect VMS for centralized video management .

Gordon Inc

Gordon Inc is a leader in specialty metal security ceiling and wall systems. Their solutions are designed to provide physical security for sensitive areas, such as data centers or restricted network zones. These systems include ceiling panels, walls, and barriers that can be customized for specific security requirements, ensuring both durability and controlled access .
