

Detailed Explanation of Distribution Box Wiring and Installation Prices

Article Overview

The cost to install wiring for a distribution box typically ranges from \$300 to \$365 per wiring run, with total distribution box installation costs ranging from \$1,200 to \$6,500 depending on panel size, amperage, and complexity.

Wiring Installation Costs

For a standard wiring run to a distribution box, the national average cost in May 2026 is approximately \$302–\$365 per run for basic mid-range work performed by professional electricians under standard conditions . This estimate includes labor and materials but can vary significantly depending on site conditions, wiring length, and the skill level of the electrician. More complex installations, such as those requiring long conduit runs, high-demand circuits, or premium materials, can increase costs.

Distribution Box Installation Costs

The total cost of installing a distribution box depends on several factors, including panel amperage, indoor vs. outdoor location, and whether a full panel upgrade or rerouting is needed. Typical ranges for residential installations are:

- 100–125A indoor panel: \$1,200–\$2,500 including labor and materials .
- 200A outdoor upgrade with new meter socket: \$3,000–\$6,000 .
- Standard residential panel upgrade: \$1,500–\$6,500 depending on size, complexity, and permitting requirements . Mid-range projects often involve a replacement pane...
