

Estonian Vertical Explosion-Proof Distribution Box Specifications

Article Overview

Explosion-proof vertical distribution boxes, such as the HRMD92 series, feature stainless steel enclosures, Ex d IIB+H2 certification, and flexible modular installation for hazardous areas.

Key Specifications

Enclosure and Material

- Constructed from 316 stainless steel for corrosion resistance and durability, suitable for harsh environments .
- Equipped with a specialized hinge structure to protect flameproof joints during opening and closing, extending service life .
- Modular design allows combination and free installation to save space and adapt to various distribution systems .
- Explosion-proof Certification
 - Certified Ex d IIB+H2, suitable for Zone 1 and Zone 2 hazardous areas .
 - Complies with ATEX and IECEx standards, ensuring safe operation in explosive atmospheres .
 - Optional certifications and customizations are available to meet specific industrial requirements .
- Electrical Components and Compatibility
 - Supports a wide range of components: MCCBs, MCBs, AC contactors, thermal relays, PLCs, soft starters, frequency converters, meters, switches, and control devices .
 - Can be configured for motor control, start/stop, corotation, inversion, and multi-sit...
