

Germany Large Cable Tray Price Inquiry

Article Overview

Large cable trays in Germany typically range from €50 to €300 per meter, depending on material, size, and load capacity.

Price Overview

The cost of large cable trays in Germany varies based on material, dimensions, and design. Common materials include hot-dip galvanized steel, stainless steel, and halogen-free plastic, with steel trays generally being more expensive due to higher load capacity and durability (Ekabel24). Large cable trays, such as those with widths of 600 mm or more and heavy-duty specifications, can cost €150–€300 per meter, while standard perforated or ladder trays may range from €50–€150 per meter (PohlCon, Trayco).

Supplier Options

- Ekabel24 offers a wide range of cable trays compliant with DIN EN 61537, suitable for industrial and commercial installations.
- Trayco provides trays with integrated ends, offering up to 50% extra capacity in certain applications, which may affect pricing.
- WDM Deutenberg and Eurotray manufacture heavy-duty and customized cable trays for industrial facilities, with prices reflecting high-quality materials and compliance with safety standards.
