Guinea and optical fiber cables

Overview

Guinea has advanced its digital transformation agenda with the signing of a contract for the construction and maintenance of a second submarine fiber-optic cable, a strategic move designed to increase the country's connectivity capacity and strengthen digital infrastructure. 25k of Optical fibres and cables, making it the 131st largest exporter of Optical fibres and cables (out of 167) in the world. In 2024, the main destinations of. The new infrastructure comes 13 years after the installation of Guinea's first submarine fibre-optic cable, which is now approaching saturation due to rising demand for internet services and data consumption. The announcement was made by Prime Minister Amadou Oury. Guinea Conakry, with its geographical challenges and rapid growth, aims to become a regional hub for connectivity in West Africa. To achieve this, the country has launched the tailor-made deployment of optical fiber networks.
