

# How much does Columbia armored optical cable cost

## Article Overview

The price of Columbia Armored Optical Cable varies widely depending on fiber count, type, and construction, typically ranging from \$0.50 to \$3.00 per foot for standard armored fiber, with higher costs for specialty or plenum-rated cables.

### Pricing Overview

Armored fiber optic cables are designed for durability and protection in harsh environments, which makes them more expensive than standard fiber cables. Prices depend on several factors:

- **Fiber Type:** Singlemode cables generally cost more than multimode due to higher performance and longer transmission distances .
- **Fiber Count:** Cables with more strands (e.g., 24, 48, 144 fibers) increase the price per foot or meter .
- **Construction:** Options include corrugated steel armored for rugged outdoor use or aluminum interlocking armored for flexibility during installation . Plenum-rated cables, which are fire-resistant and low-smoke, also carry a premium .
- **Length:** Buying in bulk reels (e.g., 1,000 ft or more) reduces the unit cost compared to short lengths .
- **Manufacturer and Brand:** Columbia cables may vary in price depending on the distributor and whether the fiber is Corning, Prysmian, or another brand .

### Estimated Price Ranges...
