

How much does a fiber optic logging cable cost in Nauru

Article Overview

A well logging fiber optic cable typically costs between \$0.30 and \$6 per foot, depending on type, fiber count, and environmental protection, with additional shipping and installation costs for Nauru.

Base Cable Costs

- Single-mode fiber (OS2): \$0.30 to \$2.80 per meter, suitable for long-distance, high-precision measurements .
- Multimode fiber (OM3/OM4): \$1.50 to \$6 per foot, often used in high-speed data applications .
- Armored cables: \$1.15 to \$6.50 per meter, recommended for harsh environments or direct burial, which is common in well logging . The price depends on fiber count (e.g., 12-core vs 96-core), cable construction (armored vs non-armored), and jacket material (LSZH or PE for chemical and fire resistance), .

Installation and Additional Costs

- Labor: Trenching, splicing, and termination can range from \$0.60 to \$3 per foot depending on terrain and precision required .
- Permits and logistics: Remote locations like Nauru may incur higher shipping costs and import duties, potentially adding 10–30% to the total project cost.
- Pre-terminated cables: These reduce on-site labor but increase material cost by 20–30% ...
