

How to calculate the price of optical fiber cable fittings

Article Overview

Fiber optic cable fittings, including connectors and adapters, typically range from \$0.50 to \$70 per unit depending on type, strand count, and installation complexity.

Typical Prices for Fiber Optic Fittings

- Basic Connectors (SC, LC, ST): \$0.50-\$25 per connector depending on type and strand count, with pre-terminated assemblies costing more for factory termination .
- Patch Cables: \$1-\$50 per cable depending on length, fiber type (single-mode vs multimode), and connector type .
- Adapters and Couplers: \$1-\$15 each, varying by connector compatibility and precision requirements .
- Armored or Specialty Connectors: \$10-\$70 per unit for ruggedized or high-precision connectors used in outdoor or industrial environments .

Factors Affecting Prices

- Fiber Type and Strand Count: Single-mode connectors are generally cheaper (\$0.10-\$0.50 per foot for cable), while multimode or higher strand counts increase costs (\$0.30-\$1.00 per foot for cable), .
- Connector Type: SC, LC, ST, MPO, and MTP connectors vary in price, with MPO/MTP typically at the higher end due to multi-fiber alignment requirements .
- Installation Complexity: Pre-terminated connectors, fusion splicing, and high-precision terminations increase costs. Labor and testing can add \$85-\$1,870 per installation segment depending on length and environment
