

How to install the wind deflector of the distribution box

Overview

Bow the deflector outward and insert rear edge behind the weatherstripping, leaving a gap at the top. Now, use the flat end of installation tool to carefully run it between the window seal and the deflector to help with its positioning. Choose your language below to begin. Place the U-Brackets provided over the top of the crossbar and secure to the Wind Deflector through the pre-drilled holes in using (4) 1/4" x 1" hex head. Lubricate the milled edge of the deflector with either a silicone spray or washing up fluid. If you place it on the soft part of the rubber the deflector will not hold under. GOBI - LR4 RACK & WIND DEFLECTOR INSTALL Title Created DateGridFlex 10 is built for fast, secure installation and resilience—ensure your array delivers lasting value and protection. This is to ensure that the adhesive on the.
