

# How to make pigtails using thread

## Article Overview

Pigtails are created by dividing the hair into two symmetrical sections and securing each with a hair tie or thread for a playful, versatile hairstyle.

### Step-by-Step Guide

- **Prepare Your Hair:** Start with clean, detangled hair. Apply a leave-in conditioner for smoothness or dry shampoo for second-day hair to add texture and manageability .
- **Part the Hair:** Use a comb to create a straight middle part from the front hairline to the nape of the neck. Clip one side to keep it out of the way .
- **Gather and Secure:** Take the unclipped side, gather it into a ponytail at your desired height (low, mid, or high), and secure it with a hair tie or thread. Repeat on the other side, ensuring symmetry .
- **Adjust for Volume:** Gently tug at the hair above the ties to add bounce and fullness. Make sure both pigtails are balanced in height and tightness .

### Tips for Different Hair Types

- **Layered or Thin Hair:** Use a small claw clip to secure sections close to the head, which prevents slipping and adds a polished look .
- **Curly Hair:** Apply a curl-defining product before securing to reduce frizz and enhance shape .
- **Wolf Cut or Heavily Layered Styles:** Leave face-framing pieces loose and clip slightly lower to blend layers naturally .
