

Instructions for using the pressure plate in a distribution box

Article Overview

To use a pressure plate in a distribution box, mount the plate securely, connect tubing and wiring correctly, ensure proper sealing, and verify alignment to maintain functionality and safety.

Step-by-Step Installation

1. Prepare the Distribution Box

- Ensure the distribution box is installed on a stable surface and properly aligned, leaving enough space for ventilation and maintenance .
 - Verify that the box is free from moisture, flammable substances, or corrosive materials, especially if installed outdoors .
- #### 2. Mount the Pressure Plate
- Thread the tubing and wire lead through the mounting plate .
 - Secure the plate using the provided hardware, either directly to the wall or inside the electrical box .
 - Use a spirit level to ensure the plate is vertically plumb and mechanically stable, preventing warping or stress on internal components .
- #### 3. Connect Tubing
- Attach the supplied tubing to the port on the back of the dual alert pressure pickup .
 - Avoid kinking the tubing to ensure proper pressure transmission .
 - If using a silicone tube with a barbed adapter, install it on the rear face of the unit for a secure connection .
- #### 4. Connect Wiring
- Insert the LED wire lead into the designated hole in the pressure pickup until it se...
