

Jordanian Multicore Optical Cable Manufacturer

Article Overview

JOCAB, Wadi Al Seer, and UCIC are leading Jordanian manufacturers of high-quality multicore and optical cables.

JOCAB – Omoush Group

JOCAB, under the guidance of Ziad Al-Omoush, is a prominent cable manufacturer in Jordan, located in Al-Muwaqqar. The company produces a wide range of multi-core PVC insulated and sheathed cables, including those suitable for electrical supply up to 450/750V, conforming to BS, VDE, and IEC standards. JOCAB emphasizes quality assurance and long-term reliability, making it a trusted supplier for installations where future access is difficult. Their products are ISO 9001 certified and carry the Jordan Quality Mark (JQM).

Wadi Al Seer Cables

Established in 2006, Wadi Al Seer specializes in electrical wires and cables, including low-voltage power cables and domestic wiring. Their factory in Al Muwaqqar is equipped with advanced production lines and calibration systems. Wadi Al Seer manufactures cables that meet BS, IEC, UL, and TÜV standards, suitable for indoor, outdoor, underground, and wet locations. While primarily focused on electrical cables, their expertise in high-quality PVC insulated copper cables positions them as a potential supplier for multicore optical cable projects
