Contact your local distributor. Separate booklets. When turning on the nanodrop, it gets "stuck" on a blue screen (which is the first screen when it's turned on) and never fully boots up. I have a feeling that it's because the software is outdated (haven't updated it since 2020), but to update the software, I need the damn thing to turn on. Update Software Update Software Quickly and easily download and install the latest NanoDrop One software and release notes from our website.
