

# New model of extended jumper

## Article Overview

The latest extended Citroën Jumper offers advanced technology, multiple powertrain options including a new electric motor, and configurations up to 17 m<sup>3</sup> for professional use.

### Overview

The new Citroën Jumper has been redesigned to enhance style, technology, and efficiency. The exterior features a refreshed front grille with the new verticalized logo, LED headlights with 30% higher efficiency, updated mirrors, and uniquely designed rear lights. The interior has a modernized dashboard with improved ergonomics, optional 7-inch digital instrument panel, and a 10-inch HD infotainment system with connected navigation.

### Powertrain and Performance

The Jumper now offers a new electric motor with 270 hp and a 100 kW battery, providing a range of up to 420 km, significantly improving over previous versions. Diesel engines are also available, including options with automatic transmission, catering to professional needs. The van supports a payload of up to 2 tonnes, making it suitable for heavy-duty transport.

### Configurations and Capacity

The extended Jumper is available in three lengths and three heights, with a maximum cargo volume of up to 17 m<sup>3</sup>. The CustomFit program allows for specialized configura...
