

Nicaragua Fiber Optic Temperature Measurement Cable Manufacturer

Article Overview

There are no specific fiber optic temperature measurement cable manufacturers identified in Nicaragua; most suppliers are international companies.

Global Manufacturers

While Nicaragua does not appear to have local manufacturers, several international companies produce fiber optic temperature measurement cables and distributed temperature sensing (DTS) systems:

- Luna Innovations (USA) – Offers fiber optic sensing products including high-definition temperature sensors, fiber Bragg grating (FBG) sensors, and distributed sensing systems suitable for industrial and research applications .
- AP Sensing (Germany) – Specializes in fiber optic sensor cables for temperature, strain, and acoustic monitoring, with options for metal-free, armored, and tube-in-tube constructions for harsh environments .
- Corning (USA) – Provides high-quality fiber optic cables widely used in communication and sensing applications .
- Prysmian Group (Italy) – Manufactures power and communication fiber optic cables that can be adapted for sensing applications .
- Furukawa (Japan) – Produces reliable fiber optic cables suitable for industrial monitoring .
- CommScope (USA) – Supplies high-performance fiber optic cables for network and industrial monitoring
