

Papua New Guinea DWDM Module Low Loss Direct Supply from Manufacturer

Article Overview

High-quality low-loss DWDM modules, including SFP+ transceivers and MUX/DEMUX units, are available for direct supply from manufacturers for deployment in Papua New Guinea.

DWDM Module Options

1. SFP+ Transceivers

- Example: LINK-PP LS-DW2110-40I SFP+ supports up to 40 km over single-mode fiber (SMF) with LC duplex connectors .
 - Compliant with SFF-8431, SFF-8432, and SFF-8472 standards for digital diagnostics.
 - Hot-swappable and suitable for metropolitan access and core networks.
 - Operates in the C-band (1525–1565 nm) with low insertion loss, ideal for high-capacity DWDM networks.
- #### 2. DWDM MUX/DEMUX Modules
- Modules support 40, 80, or 96 channels with 100 GHz or 50 GHz spacing .
 - Insertion loss is typically below 1.5 dB, ensuring minimal signal degradation.
 - High channel isolation (>25 dB) prevents interference between adjacent wavelengths.
 - Compatible with EDFA/Raman optical amplifiers for extended reach beyond 120 km.
 - Custom wavelength mapping, OEM branding, and rack integration services are available.
- #### 3. DWDM Technology Overview
- DWDM allows multiple optical signals to be transmitted over a single fiber, increasing bandwidth without additional fiber deployment
