

Parameters of an 8-channel fiber optic terminal box

Overview

The small fiber distribution box features 2 cable inlet ports and 8 cable outlet ports, accommodating up to 8 SC adapters and 1x 1÷8 mini blockless PLC splitter, with up to 8-core splicing capacity. FTB-SC8-WOPA type fiber optic terminal box is designed for FTTx application, which is cable to meet at least 8 users requirements. It can help splicing, splitting, storage and management with suitable space. With the capacity to accommodate up to 8 subscribers, it serves as the termination point for the feeder cable. This compact fiber unit is small and lightweight, making it especially suitable for mini-network terminal distribution, providing termination, fusion or mechanical. 8-core outdoor fiber optic termination box for FTTx networks; supports fiber splicing, splitting, and distribution; pole or wall-mounted; IP65-rated protection.
