

Price List of Austrian Imported Fiber Optic Cables for Smart Buildings

Article Overview

Imported Austrian fiber optic cables for smart buildings typically cost between \$1.50 and \$6 per foot, depending on type, fiber count, and construction.

Price Range and Factors

The cost of fiber optic cable varies widely based on fiber type, strand count, jacket material, and environmental rating. For high-quality imported cables suitable for smart building applications:

- Single-mode fiber (OS2): \$0.30 to \$2.80 per meter (\$0.09–\$0.85 per foot) for standard strands; premium brands or higher strand counts increase the price significantly .
- Multimode fiber (OM3/OM4): \$1.50 to \$6 per foot, commonly used in high-speed data networks within commercial buildings .
- Armored or specialized cables: \$1.15 to \$6.50 per meter (\$0.35–\$2 per foot), providing protection for harsh environments or direct burial .
- Indoor LSZH (Low Smoke Zero Halogen) cables: Slightly lower cost than outdoor-rated cables but required for fire safety in smart buildings . Additional factors affecting cost include pre-terminated assemblies, connector type, and cable length. Pre-terminated cables can increase material costs by 20–30% but reduce labor costs significantly during installation .
