

Price list of electrical distribution boxes for construction sites in Brazil

Article Overview

Electrical distribution boxes in Brazil typically range from USD 20 to USD 150 per unit, depending on type, capacity, and supplier, with both domestic and imported options available.

Market Overview

The Brazilian market for junction and distribution boxes is driven by residential, commercial, and industrial construction, as well as infrastructure projects. Domestic manufacturers supply standard models, while imports meet specialized technical requirements or competitive price points. The market is influenced by macroeconomic conditions, energy transition initiatives, and technological advancements in enclosure design.

Pricing Insights

- Standard modular distribution boxes from local suppliers in Paraná (e.g., Maringá, Curitiba) are available at approximately USD 20-50 per unit for small to medium sizes.
- Larger or specialized boxes with higher amperage ratings or advanced features can cost USD 100-150 per unit, particularly if imported.
- Import data shows Brazil receives shipments from countries like China, Chile, and Mexico, reflecting competitive pricing and availability for construction projects
