

Price quote for galvanized cable trays with screen edge

Article Overview

The price of galvanized cable trays with screen edge typically ranges from \$2 to \$25 per meter, depending on material, coating, size, and supplier.

Pricing Overview

Galvanized cable trays, including hot-dip galvanized (HDG) and pre-galvanized options, are priced based on material type, surface treatment, tray width, thickness, and order quantity. Standard lengths are usually 2.4 to 3 meters per section . For example, HDG steel trays are more durable and corrosion-resistant, which increases the upfront cost compared to pre-galvanized trays .

- Hot-Dip Galvanized (HDG) Steel: Offers long-term durability and corrosion resistance; commonly used in industrial and outdoor installations .
- Pre-Galvanized Steel: Lower cost but less durable in highly corrosive environments .
- Screen Edge / Perforated Trays: Ladder or perforated designs may slightly increase the price due to additional fabrication .

Typical Price Range

- Low-end galvanized trays: Around \$2-\$5 per meter for basic pre-galvanized or lightweight perforated trays .
- Mid-range HDG trays: Approximately \$10-\$15 per meter, suitable for heavy-duty industrial use
