

Price quote for well-known Nordic electrical distribution boxes

Article Overview

Nordic electrical distribution boxes typically range from €100 to €1,000 or more, depending on specifications, capacity, and features.

Price Range and Factors

The cost of a distribution box in the Nordic region varies widely based on voltage rating, amperage capacity, number of circuits, material, and environmental protection. Standard residential units often start around €100–€300, while commercial or industrial three-phase systems with higher durability and advanced features can exceed €1,000. Outdoor-rated, weather-resistant enclosures or units with smart monitoring and remote control capabilities carry premium pricing.

Supplier Options

- Ahlsell offers a wide range of Nordic-specific distribution boxes, including models from Eaton, PCE, Weidmüller, and GARO. These units are designed for Nordic outdoor climates, with IP44 protection, impact-resistant plastic housings, and easy service access. Prices vary by model and configuration, and Ahlsell provides both wall-mounted and freestanding options.
- Made-in-China lists distribution boxes with customizable OEM options, modular designs, and IP-rated enclosures. Pricing depends on order volume, specifications, and customization requirements, with wholesale discounts for bulk purchases
