

Saudi Arabia Project Quotation

Article Overview

For cold channel waterproofing in Saudi Arabia, several specialized suppliers offer cold-applied polyurethane and elastomeric membranes suitable for industrial and chilled applications.

Recommended Suppliers and Products

- **Saveto Group** Saveto provides a wide range of waterproofing membranes, including cold liquid-applied elastomeric polyurethane (PU) membranes, which are ideal for cold channels, food storage, and chilled warehouses. Their products are designed for durable, impermeable barriers and include single-component and two-component PU systems, flexible polyurea membranes, and polymer-modified cementitious membranes suitable for industrial applications (Saveto Group) .
- **Water Proof KSA** This company specializes in customized waterproofing solutions for Saudi Arabia's climate. They offer project assessments and can provide tailored quotations for cold channel waterproofing using premium, weather-resistant materials. Their services cover roofs, basements, and industrial structures, ensuring long-term protection (Water Proof KSA) .
- **TCW - Technology of Construction & Waterproofing** TCW offers HDPE geo-membrane lining, damp proofing, and thermal insulation systems, which can be adapted for cold channels and industrial applications. They provide project-specific consultations and have experience with substation and industrial projects in Saudi Arabia (TCW) .
- **Soliddrops Trading Company** Soliddrops supplies high-performance waterproofing and insulation systems for cold rooms, chilled warehouses, and food processing facilities. Their portfolio includes vapor control membranes, thermal insulation, and chemical-resistant coatings, ensuring compatibility with concrete and metal structu...
