

Singapore High Voltage Busbar Custom Manufacturer

Article Overview

LKHPD, Cantal, Busways Pte Ltd, and Taisin are leading providers of high voltage busbar systems in Singapore, offering fully customizable solutions with local design, testing, and installation support.

Key Manufacturers and Offerings

1. LKHPD LKHPD specializes in custom busway systems (busbar trunking systems) designed and tested in Singapore, supporting low to high voltage applications up to 128kV. Their solutions are reliable, flexible, and efficient, suitable for infrastructure, data centers, and building construction projects. LKHPD provides full project support, including layout design, installation, testing, and commissioning, and offers busbars in sandwich and cast resin types with brands like Schneider Electric, Tecobar, and Duresca (MGC) available . 2. Cantal Cantal manufactures busduct systems from 400A to 6300A, covering low and medium voltage configurations up to 24kV. Their products are IEC-compliant and industry-certified, with type-tested assembly (TTA) certification ensuring safety and reliability. Cantal emphasizes rigorous testing for short-circuit withstand, temperature rise, fire resistance, and earthquake resistance, making their busducts suitable for industrial plants, data centers, and commercial buildings . 3. Busways Pte Ltd Busways offers a complete range of bus ducts, power, and cabling systems, with expertise in MV switchgear, LV/MV bus ducts, and EV charging systems. They provide custom engineering solutions, strict quality control, and testing and commissioning services to ensure compliance with project specifications. Busways has extensive experience in industrial, commercial, and res...
