

UK wholesale price for PAM4 hybrid optical electrical cable

Article Overview

PAM4 hybrid optical/electrical cables in the UK typically range from £150 to £400 per meter for active 400G-rated cables, depending on length, type, and supplier.

Pricing Overview

PAM4 cables, such as 400G QSFP112 Active Electrical Cables, are designed for high-speed data transmission in data centers and networking environments. These cables often include retimer chips to maintain signal integrity over longer distances, with typical lengths ranging from 1m to 5m. Prices for such active cables generally start around £150-£200 per meter for short lengths (1-2 meters) and can rise to £350-£400 per meter for longer or specialized configurations. Hybrid optical/electrical cables, which combine optical fibers with electrical conductors, are more expensive due to their complexity and high data rate capabilities. For example, CPC UK lists hybrid cables for high-speed data transfer, though exact wholesale prices are usually provided upon request for bulk orders.

UK Wholesale Suppliers

- FS.com: Offers 400G PAM4 active electrical cables suitable for QSFP-DD and QSFP112 interfaces, with compliance to IEEE 802.3ck and CMIS 5.0 standards. Contacting FS directly is recommended for bulk pricing.
- ACAS Electrical: Supplies a wide range of electrical and data cables at competitive trade prices, including specialist data cables ...
