Commonly referred to as figure 8 cable, figure 8 fiber cable, figure 8 aerial cable, self-supporting figure 8 cable, or simply figure 8 optical cable, this ingenious structure combines optical fibers with an integrated messenger wire in a distinctive “8” cross-section. This self-supporting design. The Oxin fiber optic cable range includes simplex, duplex and flat ribbon patchcords, tight buffered, single loose tube and multi-loose tube distribution cables for internal and external applications as well as many variations of armoured, aerial, rodent resistant and water blocked cables. The Oxin. Corning ALTOS® figure-8 gel-free cables are self-supporting aerial cables designed for easy and economical one-step installation. The loose tube design provides stable performance over a wide temperature range and is compatible with any telecommunications-grade optical fiber.
