

What is the price of outdoor optical fiber cable

Article Overview

Outdoor optical fiber cable typically costs between \$0.09 and \$6 per foot, depending on fiber type, strand count, and protective features.

Price Range

- Wholesale materials: \$0.09 to \$1.52 per foot for bulk purchases, depending on fiber count and quality .
- Retail materials: \$1 to \$6 per foot, with higher prices for multimode fiber, armored cables, or pre-terminated assemblies .
- Single-mode fiber (OS2): \$0.09 to \$1.52 per foot; suitable for long-distance outdoor runs .
- Multimode fiber (OM3/OM4): \$1.50 to \$6 per foot; ideal for shorter distances and high-speed applications .
- Armored outdoor cables: Add 20-50% to the base cost for protection against physical damage, rodents, or environmental hazards .

Factors Affecting Cost

- Fiber Count: More strands increase material costs; a 2-core cable is cheaper than a 96-core cable .
- Cable Construction: Loose tube, tight-buffered, armored, or non-armored designs affect pricing .
- Jacket Material: Outdoor-rated PE or UV-resistant jackets cost more than indoor PVC or LSZH jackets
