

Which manufacturers produce armored fiber optic connectors

Article Overview

Leading manufacturers of armored fiber optic connectors include Infinity Fiber, Tactical Fiber Systems, OPTOKON, and FIS Blue, all offering ruggedized solutions for military, aerospace, and harsh environments.

Key Manufacturers and Offerings

Infinity Fiber specializes in custom fiber optic cable assemblies, including armored varieties suitable for military, aerospace, and tactical applications. Their products are made in the USA and designed to withstand harsh environments such as naval shipboard and aerospace missions. They offer a wide range of configurations, from simplex pigtails to 144-strand trunk cables, and can meet Telcordia standards upon request. Tactical Fiber Systems (TFS) produces DuraTac® armored fiber-optic cables, featuring tight coiled stainless steel tubing within a TPU polymer outer sheath. These cables are highly durable, resistant to cuts, rodent damage, and heavy traffic, yet lightweight and portable. TFS cables are used by NASA, SpaceX, and the U.S. Armed Forces for mission-critical communications. OPTOKON provides ruggedized fiber optic connectors, patchcords, pigtails, and assemblies engineered for secure and stable data transmission in demanding environments. Their solutions are trusted by defense, security, and critical infrastructure sectors worldwide, offering mission-ready performance in extreme conditions. FIS Blue focuses on fiber optics for broadcast, military, and maritime applications. They supply specialized cabling and connectivity equipment designed to meet the rigorous demands of harsh environments, including military-grade armored connectors
